PROFESSIONAL SERVICES MARKETING

Your research owns AI search.
Your video doesn't exist in it.

We asked ChatGPT, Perplexity, Claude, and Google the same questions your buyers ask. Hinge dominates text — but the video channel is wide open.

cite YouTube[1]

We ran 7 buyer-intent queries across AI platforms. **Hinge appeared in 4 of 7 — ranking #1 organically for "how to choose a professional services marketing agency."** Walker Sands appeared in 2. Circle S Studio and Grey Matter appeared in zero. No video content from any company was cited.

AI SEARCH VISIBILITY (/10)

Hinge Marketing	6.0
Walker Sands	4.0
Circle S Studio	2.0
Grey Matter	2.0

VIDEO CITED IN AI (/10)

Hinge Marketing	0
Walker Sands	0
Circle S Studio	0
Grey Matter	0

Hinge's research library is the most AI-cited content in professional services marketing. Your High Growth Study, Visible Firm data, and blog posts feed AI answers daily — but only as text. None of your competitors have video in AI answers either. **First one to optimize video for AI owns the whole channel.**

QUICK WIN

Turn your research into video
Record 3-minute expert videos answering your top buyer questions ("How to choose a PS marketing agency," "What high-growth firms do differently"). Publish on YouTube with full transcripts.

Why it works
You already rank #1 in text. Adding YouTube with transcripts gives AI two citation paths — article AND video. Your competitors are nowhere near this.

15-min walkthrough
Full data, every query, every screenshot. One clear next step — whether or not we work together.

How we did this: 7 buyer-intent queries across ChatGPT, Perplexity, Claude, and Google AI Overviews. Queries included: "best B2B marketing agency for professional services firms," "how to choose a marketing agency for professional services," "best marketing agency for AEC firms," "how to grow a professional services firm," and direct comparisons. Each answer evaluated for company mention, recommendation strength, content format cited, and video presence. AI answers change; we document the pattern, not a guarantee.

15 minutes. No pitch. We walk through the data. ↗

DIGITAL ACCOMPLICE

[1] Adweek, Jan 2026 (Bluefish, Emberos, Goodie AI). YouTube is the #1 social platform cited in AI answers — 16% of responses. AI search converts 1.3–5x higher than traditional search (Semrush, Visibility Labs, 2025–2026).
